Motivated and detail-oriented Software Engineering undergraduate with a strong foundation in software development, operating systems, databases, and web technologies. Actively learning skills in cloud computing, DevOps, and system reliability and self-directed learning. Experienced in Java, SQL, Linux environments, and modern web frameworks, and collaborate effectively in team settings. Seeking an entry-level role or internship to apply technical knowledge and continue professional growth in cloud or production-focused environments.

PERSONAL DETAILS

Name - Achira Medagedara
Birthday - 2003/10/26
Gender - Male
Residence - 691/06, Peradeniya road, kandy
Current residence - Colombo
Nationality - Sri Lankan (S)

EDUCATION

2024 - (*present*) **BSC (HONS) SOFTWARE ENGINEERING (*Reading*).**
University of Westminster, School of Computing at Informatics Institute of Technology (IIT).

2023 - 2024. ***FOUNDATION IN SOFTWARE ENGINEERING.***
Informatics Institute of Technology (IIT-Sri Lanka).

2008 - 2023 **TRINITY COLLEGE KANDY.**
High School, Ordinary Level, Primary Education.
Kandy, Sri Lanka.

SKILLS

Technical Skills: Python, Java, HTML, CSS, C language, Bash Scripting, NextJs.

Core Competencies: Time Management, Critical thinking and analysis, Adaptability, teamwork, leadership, Continues learning.

Tools and Technologies: VS Code, Git and GitHub, IntelliJ, Linux, Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Xampp..

Languages: English, Sinhala.

PROJECTS.

1. **CorpoVinculo – Full-Stack Organisation & Industry Outreach Platform (Ongoing).**

- Developing a full-stack web application to manage organisational operations, industry partnerships, and event workflows.
- Implementing backend APIs and database integration to support secure data handling, CRUD operations, and role-based access control.
- Building modular components using React/Next.js and Nest.js to deliver a responsive and maintainable user interface.
- Integrating AI-assisted features such as event-to-organisation matching and basic recommendation logic to suggest relevant industry partners and outreach opportunities based on interests and historical data.

2. **SailMate – Concept Web Application(2024).**

Type: Idea / System Design Project.

- Conceptualised a web platform to address a real-world problem.
- Defined features, user roles, and workflows.
- Designed high-level system architecture and ER diagrams.

3. **Python NIC Identification System(2024).**

Type Tech, Python, String Processing, Validation Logic.

- Developed a Python program to validate Sri Lankan NIC numbers(works in the terminal).
- Extracted date of birth, gender, and age from NIC format.
- Implemented error handling for invalid NIC inputs.

4. **Life on Land – Sustainability Awareness Website (2025)**

- Developed a responsive educational website aligned with UN SDG 15 (Life on Land) to promote biodiversity and environmental conservation.
- Built using React, HTML, CSS, and JavaScript, ensuring accessibility and smooth user experience.
- Structured content for clear presentation of environmental challenges and solutions.

CERTIFICATIONS ACHIEVEMENTS .

1. **Held office as treasurer in the social service union of Trinity College, Kandy. (2022-2023).**
2. **Member of the National Drum and Dance Troupe of Trinity College, Kandy. (2018-2023)**
3. **Volunteered on "Cutting edge 24" of the Informatics Institute of technology. (2024)**
4. **Scrumagize Agile Workshop. (2023)**

- A workshop series conducted by Winhe Software Engineering Academy on Agile values and principles, covering concepts
- such as agile roles, conducting agile ceremonies, managing agile artifacts and writing user stories.

5. **Linkedin Certification**
